

MUHAMMAD ZAIN ABBAS

Full Stack Developer | MERN · Next.js · Python · AI Integration

Islamabad, PK • +92 309 7678854 • iamzainabbass@gmail.com • <https://github.com/ZainAbbas-dev>
<https://linkedin.com/in/zain-abbas>

PROFILE

I don't just study software — I ship it. I've built and deployed production applications including CaseRoute, an AI-powered legal marketplace with real-time chat, encrypted messaging, and WebRTC video calls. Currently a CS student at COMSATS seeking a SE / AI internship.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Python, Dart, C++, Java
- **Frontend & Mobile:** Next.js, React.js, Tailwind CSS, Flutter
- **Backend & Real-Time:** Node.js, Express.js, Prisma ORM, Flask, FastAPI, Socket.io, WebRTC, JWT, AES Encryption
- **Databases & AI/ML:** PostgreSQL, MongoDB, Gemini API, DeepFace, OpenCV, TensorFlow Lite
- **Tools & Platforms:** Git, GitHub, Vercel, Render, VS Code

PROJECTS

CaseRoute — AI-Powered Legal Tech Platform | Next.js · Express · PostgreSQL | <https://case-route.vercel.app/>

Stack: Next.js 14, Node.js, Express.js, PostgreSQL, Prisma ORM, Socket.io, Tailwind CSS, JWT

- Architected a full-stack legal marketplace with AI-based case categorization, lawyer-client matchmaking, and secure document management using Prisma ORM.
- Implemented role-based dashboards, real-time chat, and an end-to-end case-tracking workflow from submission to evidence readiness.

Nexus Secure Chat — Full-Stack Encrypted Messaging Platform | <https://nexus-secure-chat-savr.vercel.app/>

Stack: React.js, Node.js, Express.js, Socket.io, WebRTC, PostgreSQL, CryptoJS(AES), JWT, Tailwind CSS

- Engineered a production-deployed encrypted messaging platform with AES encryption, AI-powered scam detection, and a dynamic trust-score system.
- Integrated WebRTC audio/video calls, collaborative whiteboard, and Monaco live coding environment with real-time synchronization.

Face Recognition Attendance System — AI-Powered Desktop Application

Stack: Python, Flask, DeepFace, OpenCV, TensorFlow Lite, Haar Cascade

- Developed an AI-powered attendance system using real-time facial recognition, automated attendance logging, and Flask-based REST APIs.
- Designed an instructor dashboard for attendance monitoring, record management, and anomaly detection.

EDUCATION

BS Computer Science | COMSATS University Islamabad

2023 – 2027

CGPA: 3.40 / 4.00 • 6th Semester

CERTIFICATIONS & LANGUAGES

Meta Front-End Developer (Coursera) • Google IT Automation with Python (Coursera) • **English** (Professional) • **Urdu** (Native)
